Federated Zionist Societies of the Middle West, now in session at the Hotel La Salle.

Mr. Schankin, who has passed the last fifteen years in Palestine, was expelled from that country by the Turkish government a few months before the capture of the city by the British.

"From my long years of experience in Palestine, I have no doubt that a government much like that of the United State or Switzerland would be hest for Jerusalem," Mr. Schankin said. Ho urged that engineers and chemists to the Palestine as soon as possible, as their work, he said, was needed most of all.

A petition for 42,386 volunteers to go to Palestine to participate in its rehabiliation will be circulated. It was also decided to organize a commission to prevent land speculation and to form a cooperative form of government.

To-day's session wa taken up almost entirely with committee reports and discussions of plans for raising in the next 60 days of \$1,000,000 for the \$10,000,000 for meetings of the convention Sunday evening, and the total has now been raised to \$15,000. Machine Opens Letters

With the whole tendency of modern business toward centralization, to say nothing of the enormous growth of the mail-order houses, the daily mail problem is a gigantic one to the efficiency experts. A new machine has been put on the market to open letters which is said to break all previous records. It is impossible to cut an inclosure by this method. The chief feature of the machine is its speed. In a recent test run it opened nine thousand letters an hour for an eight-hour stretch.—Emporia Gazette.
